Magnetic Washer on Transmission Filter

September 2009 Volume 1 Issue 1

Allison electronic transmissions are equipped with an external spin-on filter. The original filter from Allison comes with a magnetic flat washer, as pictured above. Replacement filters do not include these washers so before discarding remove the washer to install in replacement filter. Please refer to your manual for filter service intervals.

TUCKER SNO-CAT® CORPORATION

PRODUCT SERVICE ADVISORY

Date: July, 2009

Dear Tucker Sno-Cat customer,

The purpose of the Product Service Advisory is to inform you that the following is the new recommended transfer case gear oil lubricant approved for all Tucker models.

AMSOIL

**SEVERE GEAR® Synthetic Extreme Pressure
(EP) Lubricant 75W-90 (SVG)**

Our fall factory service seminar, September 15-16, is now full so we have scheduled a second session for October 20-21. Please e-mail John Meilicke (john@sno-cat.com) for further information.
