# BREATHER VENTS DEMOS FOR SALE STERLING SAYS..... MAINTENANCE SEMINARS MEET JASON DUTKIEWICZ

## BREATHER VENTS

We are now installing raised breather vents on all differentials as STANDARD EQUIPMENT. The vent is a no-spring type that allows for air movement in both directions. We are using the same breather vent on both the differentials and transfer case. As mentioned the raised vents on differentials (this keeps moisture out of the axle tubes) are now standard but if you also want a collection canister at the top that would be an option.

38" Steel Belt Tracks

# STERLING SAYS.....MAINTENANCE TRAINING

This month Sterling Says.....“Please look at the possibility of attending one of our maintenance training sessions, this is a great opportunity to see what we recommend and how we do it. We also bring in Cummins and Allison service personnel to help cover those components.” See the below section for more details.

## MAINTENANCE TRAINING SEMINARS

Utility maintenance training seminar July 17<sup>th</sup> – 18<sup>th</sup>

Groomer maintenance training seminar July 24<sup>th</sup> – 25<sup>th</sup>.

These Seminars will be occurring at our factory located at 2872 S. Pacific Hwy. Medford, OR 97501. They will be a two day seminars covering the following:

- Overview of the assembly process
- Outline of machine components
- Service and maintenance tips
- Q & A
- Factory Tour

The cost will be \$355.00 per person. This includes coffee and doughnuts in the morning and lunch both days. Please respond by either e-mail [sterling@sno-cat.com](mailto:sterling@sno-cat.com) or [justin@sno-cat.com](mailto:justin@sno-cat.com) or by phone 541-779-3731. Please return invitation with check payable to Tucker Sno-Cat Corp. (2872 S. Pacific Hwy. Medford, OR 97501)

## MEET JASON DUTKIEWICZ

Meet Jason Dutkiewicz. Jason started with Tucker Sno-Cat® Corporation in 2001 as a welder putting together 5th-wheel plates. Since then he has been mostly welding but worked in the Frame, Service, Electrical, and Final Production Departments. Currently Jason is putting together all the 5th-wheel plates and differential setup. He says he has been welding since he was 15 years old and before coming to work for Tucker he was welding for Medford Fabrication. Jason is often complimented on his welding and attributes it to pride-in-workmanship. Jason is a Southern Oregon native and is married with two children. In addition to helping raise the kids he likes to spend as much time as possible hunting and fishing.
